

Skills Lab Demonstration Programme on 23-11-2020

A Skills Lab Demonstration Programme was arranged today from 2.30 pm to 4.30 pm in the OPD Block corridor, for both students and faculty. The gathering was addressed by the Executive Director, Dr Vikas Bhatia, who touched upon various aspects of teaching -learning including technology enabled learning in the modern days.

A four member team spoke about the variety of options that are available to make learning easy. The team demonstrated Laerdal model of mannequin based teaching, Hifidelity mannequins like Sim man 3G, Virtual anatomy dissection table called as Sectra. They also spoke about a virtual patient table called as Body Interact.

Taking all due precautions for Covid19 the students were divided into small groups and had hands-on experience with the various models and virtual dissection.

The students actively participated in recording pulse rates, auscultation and CPR procedures on the mannequins in various case scenarios and thoroughly enjoyed the interactive learning session.
