

CLINICAL BIOCHEMISTRY LAB COMPLETES ONE YEAR AT AIIMS BIBINAGAR

The Clinical Biochemistry Laboratory at AIIMS, Bibinagar completed one year on 5th November 2021. The laboratory started with humble beginning with a Semi-Autoanalyzer and a lab technician offering a panel of 13 biochemistry tests to serve the needy patients of OPD services.

Over the last one year, with the constant efforts of visionary Director, Dr Vikas Bhatia, the department is now equipped with 08 highly qualified faculty, 03 technicians and highly sophisticated fully automated equipment like, Clinical chemistry analyzer with capacity of 1000 tests / hour, HbA1C and hemoglobin variant analyzer, and electrolyte analyzers. During this period, the laboratory has analyzed over 4800 patient samples and performed over 43,000 tests involving 33 Biochemical parameters.

The department has recently acquired a fully automated Chemiluminescence (CLIA) analyzer with the capacity of around 600 tests / hour, which can perform the special tests such as various hormones, tumor markers, vitamins and other immunological tests which would be useful for the higher level of patient care and research.

On the occasion of 1st anniversary of the laboratory, Executive Director Dr Vikas Bhatia addressed the faculty to work hard for the better patient care and satisfaction. The Dean, (Examination Cell), Dr Nitin John, The Medical Superintendent Dr Neeraj Agarwal, The Dean (Research) and Head of the Department Dr Sangeetha Sampath and all faculty were present on the occasion.
