

## **AIIMS Bibinagar Conducts “Workshop on Materiovigilance”**

The Department of Pharmacology and Medical Device Adverse Event Monitoring Centre, AIIMS Bibinagar, Hyderabad in collaboration with Indian Pharmacopoeia Commission (IPC) organized the Workshop on “Materiovigilance” on 16th July 2022.

Like adverse reaction following intake of medicines, malfunction of the medical devices/ equipments used in diagnosis, and management harm the patient to serious extents.

Just as it is for pharmacovigilance it becomes prerogative of all parties involved – including the patients to be aware of the concept of materiovigilance.

The Chief Guest for the program was the Executive Director Prof. (Dr.) Vikas Bhatia and the Guests of Honour were Officiating Dean Prof. (Dr.) Nitin John and Medical Superintendent Prof. (Dr.) Neeraj Agarwal.

Dr. Kalaiselvan, Senior Principal Scientific Officer from the Indian Pharmacopoeia Commission, Ghaziabad was the special invitee for the program. The Executive Director during his keynote address highlighted the importance and current relevance of materiovigilance, emphasized the different domains of patient safety and promised that AIIMS Bibinagar would closely liaise with IPC in all future activities.

Dr. Kalaiselvan deliberated on the Materiovigilance Programme of India its inception, progress, and current status.

The Speakers were from the Indian Pharmacopoeia Commission and also from Industry. The program both offline and online involved around 300 participants
