

Department of Orthopedics, AIIMS Bibinagar
Conducts workshop for UG students

Under the aegis of esteemed Prof. (Dr.) Vikas Bhatia, Executive Director, the Dept of Orthopedics has successfully conducted the First Ever “Hands on Saw Bone Workshop for undergraduates” on 23rd March 2023 including First ever “Integrated Virtual Reality Sessions” as a means of multimodal learning experience for Undergraduates of 2019 MBBS batch. It was an endeavour to promote basic understanding of orthopaedic principles and a hands on experience to treat various fractures appropriately.

Saw bone stations were arranged with faculty/ Instructors allotted to each table. Basic fracture fixations like tension band wiring (Olecranon), Nailing of long bones (tibial shaft fractures) and plating of long bones (Humerus) were demonstrated with a pre edited video, physical demo and demo with augmented reality to make them learn the details in the most precise manner.
