MESSAGE

I am glad to know that the All India Institute of Medical Sciences, Bibinagar is releasing its first newsletter to show case its various achievements and developments. The All India Institutes of Medical Sciences are truly a proud symbol of the advances our country has made in the area of medical science and health care.

Within a short time, AIIMS Bibinagar has been able to stand on its feet and is doing so well. This newsletter will serve as an icon of the Institute's development and achievements.

Under the able guidance of Prof. (Dr.) George A D'Souza, President and the hard work of Prof. (Dr.) Vikas Bhatia, Executive Director, this institution has already started leaving its mark in providing health care to the masses in the State of Telangana. All the young doctors and faculty are working very hard in these difficult times to infuse confidence in the minds of the patients coming to get treatment for Covid-19.

On a final note, I would like to add that we should all aim at making AIIMS-Bibinagaras one of the best among all the institutes in the country. Though not an easy task, it is achievable. The Central Government on its part will support all endeavours in this direction.

My best wishes to the administration and faculty of AIIMS Bibinagar! The efforts of the AIIMS newsletter editorial team are appreciated.

(Bandi Sanjay Kumar)

MESSAGE

At the outset, I would like to appreciate and thank the entire family of All India Institute of Medical Sciences (AIIMS), Bibinagar, who are helping in India's fight against the deadly Coronavirus. The dedication shown by the doctors, medical staff, support staff, students, and the administration during these challenging times is highly commendable. I sincerely hope that this noble work continues while also hoping and praying for everybody's wellbeing.

I am delighted to know that AIIMS, Bibinagar, Telangana is coming out with the First Edition of its Newsletter. This Newsletter is being brought to showcase various achievements and developments of the institute, its faculties, and students.

This Newsletter will bring forward all the activities undertaken by AIIMS, Bibinagar to the outside world and inspire them to do similar humanitarian work. I am sure that this Newsletter will come up with new achievements and developments in the dynamic medical field with the release of each new edition.

I Convey my best wishes !

(Arvind Dharmapuri)

Prof. (Dr.) George A D'Souza

President
All India Institute of
Medical Sciences, Bibinagar.

MESSAGE

I am glad that the faculty and students of AIIMS Bibinagar are bringing out a newsletter. The newsletter is important to keep the ever-increasing staff and students of the institute informed of the developments, progress and events across the campus. This I am sure will bring all the institute faculty staff and students together as one family and encourage each other to work towards making the institute one of the best if not the best in the country.

All the best!

George D'Souza MD., DNB.
President,
AIIMS Bibinagar

Prof. (Dr) Vikas Bhatia

CEO & Director,
AIIMS Bibinagar, Telangana

MESSAGE

He who has the vision sees more than you or I;
He who lives the golden dream lives fourfold thereby;
Time may scoff and worlds may laugh, hosts assail his thought,
But the visionary came ere the builders wrought;
Ere the tower bestrode the dome, ere the dome the arch,
He, the dreamer of the dream, saw the vision march!

-Folger McKinsey

Dear Family of AIIMS Bibinagar,

I have said family because that is what we are, a family working towards a common goal of shaping our institute as one of the best in the country. To achieve this we all need to motivate and encourage each other to achieve academic and health care laurels.

We have all joined this institute at its budding stage and we bear the power to mould it into a great one. I am proud of the activities conducted by the institute and its constituent departments comprising of not only educational activities but also those encouraging a healthy life style, promoting environmental conservation, and commemorating the legendary figures of our country. We have been dedicatedly working towards providing quality hospital services.

The number of faculty and staff has increased from a handful to manifold in the year that I have taken over as the Director with recruitment of doctors, nurses and other supporting health care workers. We have faced the battle against COVID-19 pandemic together – at various levels of testing, treating and preventing. Many departments have been pro active in conducting CMEs and research projects.

I have a vision – of placing AIIMS Bibinagar fore front in the fields of medical education, research and patient care. We need to proudly announce our achievements to the world and celebrate our milestones. I hope this newsletter achieves that – bring out the best in all of us and encourage us to do better. Many years from now if we look back at the journey we have travelled, this newsletter will serve as an album of all those memories. I am sure with the support of Ministry of Health and Family Welfare, Govt. of India we will continue to serve the people of Telangana state and region with perseverance and care.

So dear family, go ahead and make some beautiful memories and reach for the sky! I wish all the faculty, staff and students of AIIMS a very happy, healthy and vibrant journey ahead!

Department of
Physiology AIIMS, Bibinagar.

MESSAGE

The journey of a thousand miles begins with one step – Lao Tzu

Greetings dear faculty and students of AIIMS Bibinagar!

Our institute, AIIMS Bibinagar, has set off on a journey towards becoming one of the top institutes in India. A small step towards that end is to chronicle our progress and achievements; this newsletter aims to do just that. It would serve as an ideal mouthpiece showcasing the various developments and activities happening in the Institute.

Remember to celebrate milestones as you prepare for the road ahead- Nelson Mandela

Released bi-annually, it will serve as a timeline in the future to look back and see how events had unraveled in the shaping of our Institute.

We aspire to capture the departmental milestones, educational/CME programs and national / international accolades received by our faculty. This would certainly encourage all of us to unitedly strive towards success and excellence. Drawing parallelism from the saying by a great telugu poet Poet Shri Gurajada Venkata Apparao "Desham ante matti kadoi –desham ante manishuloi" (A country is defined by its people and not its land), an institute is defined by its faculty, educational activities and research and not by its buildings. A medical institute's/ hospital's progress is contributed by the all its employees and students alike. The various activities conducted by and for our nursing staff will be included in this newsletter as well.

The first edition of the newsletter is all about getting to know the administrative and educational structure of our institute. We are introducing the members involved in various important institutional committees and departmental faculty. The editorial team is grateful to the Director, Dr. Vikas Bhatia for his constant support, suggestions and encouragement.

Looking forward to bringing you all the updates regarding our institute, "buena suerte"- Good Luck!
