

AIIMS trains paediatric docs

DC CORRESPONDENT
HYDERABAD, NOV. 11

AIIMS Bibinagar has conducted a specialised training workshop for paediatric doctors on using simulation as a tool for Quality Improvement (QI) in healthcare. The department of paediatrics, in collaboration with the Intensive Care Chapter of the Indian Academy of Pediatrics (IAP), organised Simpect 2025 — a simulation-based workshop for intensive care professionals. The event formed part of the 27th National Conference of the IAP Intensive Care Chapter held at the Hyderabad International Convention Centre from November 7 to 9.

Around 40 delegates, including ICU specialists from medical, surgical, paediatric and neonatal disciplines, as well as nurses and quality managers from across India, participated in the work-

shop. The programme featured globally renowned faculty, including Dr Vinay Nadkarni from the Children's Hospital of Philadelphia, Dr Traci Wolbrink from Boston Children's Hospital and Dr Hiroshi Kurusowa from Japan.

Sessions included simulation-based scenarios, system learning through debriefing, and guidance on integrating simulation into QI projects. Participants also took part in scenario mapping, peer reviews, mock debriefings, and “barrier-busting” exercises while drafting pilot project proposals for implementation in their institutions.
